S & D Scaffolding Clients

[1 Home](#) | [2 Service](#) | [3 Quote](#) | [4 Clients](#) | [5 About](#) | [6 Contact](#) | [7 Emergency](#)

Clients and Contracts

We have many clients, both large and small throughout the Northwest area, with many of them that contract to local authorities, national companies and major building construction contractors, as well as local builder's and trades.

Becoming a Client of S & D Scaffolding

All new clients are welcomed by S & D Scaffolding's BDM (Business Development Manager). Our BDM is there to welcome you and to introduce you to services provided by S & D Scaffolding.

The Development Manager will visit or phone you to talk through your company or individual requirements. This aims to ensure you enjoy a reliable, cost effective and individual service from S & D Scaffolding. Where a site survey is required, our site Scaffolding Assessor will accompany the BDM.

Contact the S & D Business Development Manage and discuss your organisations or individual requirements.

About S & D Scaffolding

[1 Home](#) | [2 Service](#) | [3 Quote](#) | [4 Clients](#) | [5 About](#) | [6 Contact](#) | [7 Emergency](#)

S & D Scaffolding is a Tameside scaffolding contractor, providing services to companies and individuals across the Northwest.

The services include construction of tube and fitting scaffolding. The S & D Scaffolding company was formed at the beginning 2007.

Since the start of the company, S & D Scaffolding has continued to strengthen its foundations by underpinning its services with a commitment to safety, efficient, cost effectiveness and a “no problem attitude”

S & D Scaffolding operates a same/to next day service coupled with a price promise matching and beating like for like quotes by other scaffolders.

All S & D Scaffolding services are back by more than 12yrs combined experience of founders Scott Taylor and Daren Torskyj. Scott is CITB qualified with first hand experience of scaffolding up to 19 lifts.

The company’s Scaffolding Assessor is Darren Torskyj. S & D Scaffolding is contracted by a range of clients including; Building Contractors, Roofing Specialists, Window Fitters, Construction Engineers and many more.

S & D scaffolding equipment boasts thousands of feet of scaffolding tube and scaffolding boards to match. S & D are ready to respond quickly to client’s requirements and can be called on every day of the year, 24/7.

The company is new and energetic, keen to build long lasting and reliable working relations with new clients and to ensure its existing clients continue to receive an efficient and dependable service.

From the S & D Scaffolding Team “We would like to thank all our new and loyal clients for your continued business. “

S & D Scaffolding Emergency Services

[1 Home](#) | [2 Service](#) | [3 Quote](#) | [4 Clients](#) | [5 About](#) | [6 Contact](#) | [7 Emergency](#)

Emergency Hotline **07723 691 460**

S & D Scaffolding offers a 24hr emergency call out. Immediate emergency response service with a dedicated, mobile, fully equipped and trained CITB qualified workforce.

We concentrate our efforts on responding faster, mobilising sooner and erecting more quickly and safely than our competitors.

- Collapsed scaffolding
- Structural damage caused by the weather
- Roofing repair emergencies
- Securing vandalized scaffolding

Same to Next Day Erecting

S & D respond to scaffolding requirements that need a quick same to next day response. In many cases scaffolding can be on site and erected the same day of order.

When the same day is not possible, scaffolding will be erected the very next day.

S & D Scaffolding Safety

[1 Home](#) | [2 Service](#) | [3 Quote](#) | [4 Clients](#) | [5 About](#) | [6 Contact](#) | [7 Emergency](#)

Erecting and Maintenance

S & D Scaffolding are required to provide a suitable stable working platform that has been erected by its competent personnel. It is important that you have in place arrangements to ensure this and that these arrangements are reviewed regularly.

Once erected, it is vital that scaffolds are inspected regularly by us to ensure that they remain safe and stable, especially after any adverse conditions. (i.e. high winds)

Working Safe at Height

S & D Scaffolding carries out work safely at height. S & D Scaffolders are competent professionals who carry out a risk assessment before erecting scaffolding. Based on the findings of an assessment, a method statement may be completed, detailing erection and striking of the scaffold.

Street Permits

S & D can arrange for a permit allowing the scaffold to be based in the street or on another party's land. Where required, S & D will write a plan to deal with "in use inspections" and procedures for modification, amendment and repair of a scaffold structure.
